

FRANCESCO DE VITO

About Me

I am a second-year student in the Master's program in Software and Data Engineering at the Università della Svizzera Italiana and obtained my Bachelor's degree in Computer Science from the University of Insubria; I am deeply passionate about learning and developing new technologies.

Driven by passion for technology, I am determined to achieve both academic and professional milestones in the field. Through diverse projects and teamwork, I have honed my soft skills, particularly in collaboration, proactive problem-solving, and effective task management.
